Qualifying for 2022 NCGA Team Tournaments

Each year the NCGA conducts team tournaments dedicated to Associate Club competitions.

These tournaments are: the Associate Club 4-Ball Net Championship; the Associate Club Championship; and the Senior 4-Ball Net Championship.

Our BAP participants are selected based upon their performance in our designated BAP qualifying events. Entry fees for the qualifying round of each NCGA tournament in which a team represents the Club will be subsidized to cover 50% of the entry cost. Should a team qualify for the championship round there are no green fees required. Any additional fees (the cost of an electric cart for example) required for Sectional or Championship rounds are paid by the team members.

In selecting our teams, a list of qualifiers is based upon the lowest net differential of two or more designated tournaments preceding the NCGA cut-off date. We then select team members from that list in descending order, with the additional requirement of availability throughout the potential run of the NCGA tournament for which they've qualified.

To make as many qualifying spots available as possible, members selected may only play in one team event per year (unless a slot needs to be filled and no other qualifying members are available or willing).

Please refer to the grid on the Web under the Club Update tab and button “2022 Event Schedule”, which lists specific information about NCGA tournament dates and the BAP tournaments that will serve as qualifying events.

NOTE: the Associate Club Net Amateur Championship is an **Individual** stroke play event in which members may represent the Club. However, there is no intra-club qualifying and no BAP sponsorship is provided. The Championship round will be played at Poppy Hills.

The complete 2022 NCGA Tournament calendar can be found at www.ncga.org/play/ncga-championship

Any questions, contact Steve Shaw.
